

Assembly Bill No. 2348

Passed the Assembly August 27, 2004

Chief Clerk of the Assembly

Passed the Senate August 26, 2004

Secretary of the Senate

This bill was received by the Governor this _____ day of
_____, 2004, at _____ o'clock __M.

Private Secretary of the Governor

└

CHAPTER _____

An act to amend Sections 65583, 65583.1, 65589.5, and 65915 of, and to add Section 65583.2 to, the Government Code, relating to housing.

LEGISLATIVE COUNSEL'S DIGEST

AB 2348, Mullin. Housing element: regional housing need.

(1) Existing law requires each city, county, or city and county to prepare and adopt a general plan for its jurisdiction that contains certain mandatory elements, including a housing element. One part of the housing element is an assessment of housing needs and an inventory of land suitable for residential development in meeting a city's or county's share of the regional housing need, including vacant sites and sites having potential for redevelopment, and an analysis of the relationship of zoning facilities and services to these sites. A city, county, or city and county is required to submit a draft housing element or draft amendment to its housing element to the Department of Housing and Community Development for a determination of whether the draft complies with state law governing housing elements.

This bill would revise the criteria for the inventory of sites to require sites to be identified that can be developed for housing within the planning period to accommodate that portion of a city's or county's share of the regional housing need for all income levels, as specified. The bill would expand the relocation assistance available to persons displaced by sites identified for substantial rehabilitation. By imposing additional duties upon local officials, this bill would create a state-mandated local program.

The bill would also provide that the department is to evaluate a proposed or adopted housing element for substantial compliance with governing state law, and would revise the requirements that may be imposed on a development project that contributes to meeting the regional housing need.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims

Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

(3) This bill would become operative only if AB 2158 of the 2003–04 Regular Session is enacted and becomes operative.

The people of the State of California do enact as follows:

SECTION 1. Section 65583 of the Government Code is amended to read:

65583. The housing element shall consist of an identification and analysis of existing and projected housing needs and a statement of goals, policies, quantified objectives, financial resources, and scheduled programs for the preservation, improvement, and development of housing. The housing element shall identify adequate sites for housing, including rental housing, factory-built housing, and mobilehomes, and shall make adequate provision for the existing and projected needs of all economic segments of the community. The element shall contain all of the following:

(a) An assessment of housing needs and an inventory of resources and constraints relevant to the meeting of these needs. The assessment and inventory shall include all of the following:

(1) An analysis of population and employment trends and documentation of projections and a quantification of the locality's existing and projected housing needs for all income levels. These existing and projected needs shall include the locality's share of the regional housing need in accordance with Section 65584.

(2) An analysis and documentation of household characteristics, including level of payment compared to ability to pay, housing characteristics, including overcrowding, and housing stock condition.

(3) An inventory of land suitable for residential development, including vacant sites and sites having potential for redevelopment, and an analysis of the relationship of zoning and public facilities and services to these sites.

(4) An analysis of potential and actual governmental constraints upon the maintenance, improvement, or development of housing for all income levels and for persons with disabilities as identified in the analysis pursuant to paragraph (6), including land use controls, building codes and their enforcement, site improvements, fees and other exactions required of developers, and local processing and permit procedures. The analysis shall also demonstrate local efforts to remove governmental constraints that hinder the locality from meeting its share of the regional housing need in accordance with Section 65584 and from meeting the need for housing for persons with disabilities identified pursuant to paragraph (6).

(5) An analysis of potential and actual nongovernmental constraints upon the maintenance, improvement, or development of housing for all income levels, including the availability of financing, the price of land, and the cost of construction.

(6) An analysis of any special housing needs, such as those of the elderly, persons with disabilities, large families, farmworkers, families with female heads of households, and families and persons in need of emergency shelter.

(7) An analysis of opportunities for energy conservation with respect to residential development.

(8) An analysis of existing assisted housing developments that are eligible to change from low-income housing uses during the next 10 years due to termination of subsidy contracts, mortgage prepayment, or expiration of restrictions on use. “Assisted housing developments,” for the purpose of this section, shall mean multifamily rental housing that receives governmental assistance under federal programs listed in subdivision (a) of Section 65863.10, state and local multifamily revenue bond programs, local redevelopment programs, the federal Community Development Block Grant Program, or local in-lieu fees. “Assisted housing developments” shall also include multifamily rental units that were developed pursuant to a local inclusionary housing program or used to qualify for a density bonus pursuant to Section 65916.

(A) The analysis shall include a listing of each development by project name and address, the type of governmental assistance received, the earliest possible date of change from low-income use and the total number of elderly and nonelderly units that could be

lost from the locality's low-income housing stock in each year during the 10-year period. For purposes of state and federally funded projects, the analysis required by this subparagraph need only contain information available on a statewide basis.

(B) The analysis shall estimate the total cost of producing new rental housing that is comparable in size and rent levels, to replace the units that could change from low-income use, and an estimated cost of preserving the assisted housing developments. This cost analysis for replacement housing may be done aggregately for each five-year period and does not have to contain a project-by-project cost estimate.

(C) The analysis shall identify public and private nonprofit corporations known to the local government which have legal and managerial capacity to acquire and manage these housing developments.

(D) The analysis shall identify and consider the use of all federal, state, and local financing and subsidy programs which can be used to preserve, for lower income households, the assisted housing developments, identified in this paragraph, including, but not limited to, federal Community Development Block Grant Program funds, tax increment funds received by a redevelopment agency of the community, and administrative fees received by a housing authority operating within the community. In considering the use of these financing and subsidy programs, the analysis shall identify the amounts of funds under each available program which have not been legally obligated for other purposes and which could be available for use in preserving assisted housing developments.

(b) (1) A statement of the community's goals, quantified objectives, and policies relative to the maintenance, preservation, improvement, and development of housing.

(2) It is recognized that the total housing needs identified pursuant to subdivision (a) may exceed available resources and the community's ability to satisfy this need within the content of the general plan requirements outlined in Article 5 (commencing with Section 65300). Under these circumstances, the quantified objectives need not be identical to the total housing needs. The quantified objectives shall establish the maximum number of housing units by income category that can be constructed, rehabilitated, and conserved over a five-year time period.

(c) A program which sets forth a five-year schedule of actions the local government is undertaking or intends to undertake to implement the policies and achieve the goals and objectives of the housing element through the administration of land use and development controls, provision of regulatory concessions and incentives, and the utilization of appropriate federal and state financing and subsidy programs when available and the utilization of moneys in a low- and moderate-income housing fund of an agency if the locality has established a redevelopment project area pursuant to the Community Redevelopment Law (Division 24 (commencing with Section 33000) of the Health and Safety Code). In order to make adequate provision for the housing needs of all economic segments of the community, the program shall do all of the following:

(1) Identify actions that will be taken to make sites available during the planning period of the general plan with appropriate zoning and development standards and with services and facilities to accommodate that portion of the city's or county's share of the regional housing need for each income level that could not be accommodated on sites identified in the inventory completed pursuant to paragraph (3) of subdivision (a) without rezoning. Sites shall be identified as needed to facilitate and encourage the development of a variety of types of housing for all income levels, including multifamily rental housing, factory-built housing, mobilehomes, housing for agricultural employees, emergency shelters, and transitional housing.

(A) Where the inventory of sites, pursuant to paragraph (3) of subdivision (a), does not identify adequate sites to accommodate the need for groups of all household income levels pursuant to Section 65584, the program shall identify sites that can be developed for housing within the planning period pursuant to subdivision (h) of Section 65583.2.

(B) Where the inventory of sites pursuant to paragraph (3) of subdivision (a) does not identify adequate sites to accommodate the need for farmworker housing, the program shall provide for sufficient sites to meet the need with zoning that permits farmworker housing use by right, including density and development standards that could accommodate and facilitate the feasibility of the development of farmworker housing for low- and very low income households.

(2) Assist in the development of adequate housing to meet the needs of low- and moderate-income households.

(3) Address and, where appropriate and legally possible, remove governmental constraints to the maintenance, improvement, and development of housing, including housing for all income levels and housing for persons with disabilities. The program shall remove constraints to, or provide reasonable accommodations for housing designed for, intended for occupancy by, or with supportive services for, persons with disabilities.

(4) Conserve and improve the condition of the existing affordable housing stock, which may include addressing ways to mitigate the loss of dwelling units demolished by public or private action.

(5) Promote housing opportunities for all persons regardless of race, religion, sex, marital status, ancestry, national origin, color, familial status, or disability.

(6) (A) Preserve for lower income households the assisted housing developments identified pursuant to paragraph (8) of subdivision (a). The program for preservation of the assisted housing developments shall utilize, to the extent necessary, all available federal, state, and local financing and subsidy programs identified in paragraph (8) of subdivision (a), except where a community has other urgent needs for which alternative funding sources are not available. The program may include strategies that involve local regulation and technical assistance.

(B) The program shall include an identification of the agencies and officials responsible for the implementation of the various actions and the means by which consistency will be achieved with other general plan elements and community goals. The local government shall make a diligent effort to achieve public participation of all economic segments of the community in the development of the housing element, and the program shall describe this effort.

(d) The analysis and program for preserving assisted housing developments required by the amendments to this section enacted by the Statutes of 1989 shall be adopted as an amendment to the housing element by July 1, 1992.

(e) Failure of the department to review and report its findings pursuant to Section 65585 to the local government between July

1, 1992, and the next periodic review and revision required by Section 65588, concerning the housing element amendment required by the amendments to this section by the Statutes of 1989, shall not be used as a basis for allocation or denial of any housing assistance administered pursuant to Part 2 (commencing with Section 50400) of Division 31 of the Health and Safety Code.

SEC. 2. Section 65583.1 of the Government Code is amended to read:

65583.1. (a) The Department of Housing and Community Development, in evaluating a proposed or adopted housing element for substantial compliance with this article, may allow a city or county to identify adequate sites, as required pursuant to Section 65583, by a variety of methods, including, but not limited to, redesignation of property to a more intense land use category and increasing the density allowed within one or more categories. The department may also allow a city or county to identify sites for second units based on the number of second units developed in the prior housing element planning period whether or not the units are permitted by right, the need for these units in the community, the resources or incentives available for their development, and any other relevant factors, as determined by the department. Nothing in this section reduces the responsibility of a city or county to identify, by income category, the total number of sites for residential development as required by this article.

(b) Sites that contain permanent housing units located on a military base undergoing closure or conversion as a result of action pursuant to the Defense Authorization Amendments and Base Closure and Realignment Act (Public Law 100-526), the Defense Base Closure and Realignment Act of 1990 (Public Law 101-510), or any subsequent act requiring the closure or conversion of a military base may be identified as an adequate site if the housing element demonstrates that the housing units will be available for occupancy by households within the planning period of the element. No sites containing housing units scheduled or planned for demolition or conversion to nonresidential uses shall qualify as an adequate site.

Any city, city and county, or county using this subdivision shall address the progress in meeting this section in the reports provided pursuant to paragraph (1) of subdivision (b) of Section 65400.

(c) (1) The Department of Housing and Community Development may allow a city or county to substitute the provision of units for up to 25 percent of the community's obligation to identify adequate sites for any income category in its housing element pursuant to paragraph (1) of subdivision (c) of Section 65583 where the community includes in its housing element a program committing the local government to provide units in that income category within the city or county that will be made available through the provision of committed assistance during the planning period covered by the element to low- and very low income households at affordable housing costs or affordable rents, as defined in Sections 50052.5 and 50053 of the Health and Safety Code, and which meet the requirements of paragraph (2). Except as otherwise provided in this subdivision, the community may substitute one dwelling unit for one dwelling unit site in the applicable income category. The program shall do all of the following:

(A) Identify the specific, existing sources of committed assistance and dedicate a specific portion of the funds from those sources to the provision of housing pursuant to this subdivision.

(B) Indicate the number of units that will be provided to both low- and very low income households and demonstrate that the amount of dedicated funds is sufficient to develop the units at affordable housing costs or affordable rents.

(C) Demonstrate that the units meet the requirements of paragraph (2).

(2) Only units that comply with subparagraph (A), (B), or (C) qualify for inclusion in the housing element program described in paragraph (1), as follows:

(A) Units that are to be substantially rehabilitated with committed assistance from the city or county and constitute a net increase in the community's stock of housing affordable to low- and very low income households. For purposes of this subparagraph, a unit is not eligible to be "substantially rehabilitated" unless all of the following requirements are met:

(i) At the time the unit is identified for substantial rehabilitation, (I) the local government has determined that the unit is at imminent risk of loss to the housing stock, (II) the local government has committed to provide relocation assistance pursuant to Chapter 16 (commencing with Section 7260) of

Division 7 of Title 1 to any occupants temporarily or permanently displaced by the rehabilitation or code enforcement activity, or the relocation is otherwise provided prior to displacement either as a condition of receivership, or provided by the property owner or the local government pursuant to Article 2.5 (commencing with Section 17975) of Chapter 5 of Part 1.5 of Division 13 of the Health and Safety Code, or as otherwise provided by local ordinance; provided the assistance includes not less than the equivalent of four months' rent and moving expenses and comparable replacement housing consistent with the moving expenses and comparable replacement housing required pursuant to Section 7260, (III) the local government requires that any displaced occupants will have the right to reoccupy the rehabilitated units, and (IV) the unit has been found by the local government or a court to be unfit for human habitation due to the existence of at least four violations of the conditions listed in subdivisions (a) to (g), inclusive, of Section 17995.3 of the Health and Safety Code.

(ii) The rehabilitated unit will have long-term affordability covenants and restrictions that require the unit to be available to, and occupied by, persons or families of low- or very low income at affordable housing costs for at least 20 years or the time period required by any applicable federal or state law or regulation.

(iii) Prior to initial occupancy after rehabilitation, the local code enforcement agency shall issue a certificate of occupancy indicating compliance with all applicable state and local building code and health and safety code requirements.

(B) Units that are located in a multifamily rental housing complex of four or more units, are converted with committed assistance from the city or county from nonaffordable to affordable by acquisition of the unit or the purchase of affordability covenants and restrictions for the unit, are not acquired by eminent domain, and constitute a net increase in the community's stock of housing affordable to low- and very low income households. For purposes of this subparagraph, a unit is not converted by acquisition or the purchase of affordability covenants unless all of the following occur:

(i) The unit is made available at a cost affordable to low- or very low income households.

(ii) At the time the unit is identified for acquisition, the unit is not available at an affordable housing cost to either of the following:

(I) Low-income households, if the unit will be made affordable to low-income households.

(II) Very low income households, if the unit will be made affordable to very low income households.

(iii) At the time the unit is identified for acquisition the unit is not occupied by low- or very low income households or if the acquired unit is occupied, the local government has committed to provide relocation assistance prior to displacement, if any, pursuant to Chapter 16 (commencing with Section 7260) of Division 7 of Title 1 to any occupants displaced by the conversion, or the relocation is otherwise provided prior to displacement; provided the assistance includes not less than the equivalent of four months rent and moving expenses and comparable replacement housing consistent with the moving expenses and comparable replacement housing required pursuant to Section 7260.

(iv) The unit is in decent, safe, and sanitary condition at the time of occupancy.

(v) The unit has long-term affordability covenants and restrictions that require the unit to be affordable to persons of low- or very low income for not less than 55 years.

(C) Units that will be preserved at affordable housing costs to persons or families of low- or very low incomes with committed assistance from the city or county by acquisition of the unit or the purchase of affordability covenants for the unit. For purposes of this subparagraph, a unit shall not be deemed preserved unless all of the following occur:

(i) The unit has long-term affordability covenants and restrictions that require the unit to be affordable to and reserved for occupancy by persons of the same or lower income group as the current occupants for a period of at least 40 years.

(ii) The unit is multifamily rental housing that receives governmental assistance under any of the following state and federal programs: Section 221(d)(3) of the National Housing Act (12 U.S.C. Sec. 1715l(d)(3) and (5)); Section 236 of the National Housing Act (12 U.S.C. Sec. 1715z-1); Section 202 of the Housing Act of 1959 (12 U.S.C. Sec. 1701q); for rent supplement assistance under Section 101 of the Housing and Urban

Development Act of 1965, as amended (12 U.S.C. Sec. 1701s); under Section 515 of the Housing Act of 1949, as amended (42 U.S.C. Sec. 1485); and any new construction, substantial rehabilitation, moderate rehabilitation, property disposition, and loan management set-aside programs, or any other program providing project-based assistance, under Section 8 of the United States Housing Act of 1937, as amended (42 U.S.C. Sec. 1437f); any state and local multifamily revenue bond programs; local redevelopment programs; the federal Community Development Block Grant Program; and other local housing assistance programs or units that were used to qualify for a density bonus pursuant to Section 65916.

(iii) The city or county finds, after a public hearing, that the unit is eligible, and is reasonably expected, to change from housing affordable to low- and very low income households to any other use during the next five years due to termination of subsidy contracts, mortgage prepayment, or expiration of restrictions on use.

(iv) The unit is in decent, safe, and sanitary condition at the time of occupancy.

(v) At the time the unit is identified for preservation it is available at affordable cost to persons or families of low- or very low income.

(3) This subdivision does not apply to any city or county that, during the current or immediately prior planning period, as defined by Section 65588, has not met any of its share of the regional need for affordable housing, as defined in Section 65584, for low- and very low income households. A city or county shall document for any such housing unit that a building permit has been issued and all development and permit fees have been paid or the unit is eligible to be lawfully occupied.

(4) For purposes of this subdivision, “committed assistance” means that the city or county enters into a legally enforceable agreement during the first two years of the housing element planning period that obligates sufficient available funds to provide the assistance necessary to make the identified units affordable and that requires that the units be made available for occupancy within two years of the execution of the agreement. “Committed assistance” does not include tenant-based rental assistance.

(5) For purposes of this subdivision, “net increase” includes only housing units provided committed assistance pursuant to subparagraph (A) or (B) of paragraph (2) in the current planning period, as defined in Section 65588, that were not provided committed assistance in the immediately prior planning period.

(6) For purposes of this subdivision, “the time the unit is identified” means the earliest time when any city or county agent, acting on behalf of a public entity, has proposed in writing or has proposed orally or in writing to the property owner, that the unit be considered for substantial rehabilitation, acquisition, or preservation.

(7) On July 1 of the third year of the planning period, as defined by Section 65588, in the report required pursuant to Section 65400, each city or county that has included in its housing element a program to provide units pursuant to subparagraph (A), (B), or (C) of paragraph (2) shall report in writing to the legislative body, and to the department within 30 days of making its report to the legislative body, on its progress in providing units pursuant to this subdivision. The report shall identify the specific units for which committed assistance has been provided or which have been made available to low- and very low income households, and it shall adequately document how each unit complies with this subdivision. If, by July 1 of the third year of the planning period, the city or county has not entered into an enforceable agreement of committed assistance for all units specified in the programs adopted pursuant to subparagraph (A), (B), or (C) of paragraph (2), the city or county shall, not later than July 1 of the fourth year of the planning period, adopt an amended housing element in accordance with Section 65585, identifying additional adequate sites pursuant to paragraph (1) of subdivision (c) of Section 65583 sufficient to accommodate the number of units for which committed assistance was not provided. If a city or county does not amend its housing element to identify adequate sites to address any shortfall, or fails to complete the rehabilitation, acquisition, purchase of affordability covenants, or the preservation of any housing unit within two years after committed assistance was provided to that unit, it shall be prohibited from identifying units pursuant to subparagraph (A), (B), or (C) of paragraph (2) in the housing element that it adopts for the next planning period, as

defined in Section 65588, above the number of units actually provided or preserved due to committed assistance.

SEC. 3. Section 65583.2 is added to the Government Code, to read:

65583.2. (a) A city's or county's inventory of land suitable for residential development pursuant to paragraph (3) of subdivision (a) of Section 65583 shall be used to identify sites that can be developed for housing within the planning period and that are sufficient to provide for the jurisdiction's share of the regional housing need for all income levels pursuant to Section 65584. As used in this section, "land suitable for residential development" includes all of the following:

- (1) Vacant sites zoned for residential use.
- (2) Vacant sites zoned for nonresidential use that allows residential development.
- (3) Residentially zoned sites that are capable of being developed at a higher density.
- (4) Sites zoned for nonresidential use that can be redeveloped for, and as necessary, rezoned for, residential use.
- (b) The inventory of land shall include all of the following:
 - (1) A listing of properties by parcel number or other unique reference.
 - (2) The size of each property listed pursuant to paragraph (1), and the general plan designation and zoning of each property.
 - (3) For nonvacant sites, a description of the existing use of each property.
 - (4) A general description of any environmental constraints to the development of housing within the jurisdiction, the documentation for which has been made available to the jurisdiction. This information need not be identified on a site-specific basis.
 - (5) A general description of existing or planned water, sewer, and other dry utilities supply, including the availability and access to distribution facilities. This information need not be identified on a site-specific basis.
 - (6) Sites identified as available for housing for above-moderate income households in areas not served by public sewer systems. This information need not be identified on a site-specific basis.

(7) A map that shows the location of the sites included in the inventory, such as the land use map from the jurisdiction's general plan for reference purposes only.

(c) Based on the information provided in subdivision (b), a city or county shall determine whether each site in the inventory can accommodate some portion of its share of the regional housing need by income level during the planning period, as determined pursuant to Section 65584. The analysis shall determine whether the inventory can provide for a variety of types of housing, including multifamily rental housing, factory-built housing, mobilehomes, housing for agricultural employees, emergency shelters, and transitional housing. The city or county shall determine the number of housing units that can be accommodated on each site as follows:

(1) If local law or regulations require the development of a site at a minimum density, the department shall accept the planning agency's calculation of the total housing unit capacity on that site based on the established minimum density. If the city or county does not adopt a law or regulations requiring the development of a site at a minimum density, then it shall demonstrate how the number of units determined for that site pursuant to this subdivision will be accommodated.

(2) The number of units calculated pursuant to paragraph (1) shall be adjusted as necessary, based on the land use controls and site improvements requirement identified in paragraph (4) of subdivision (a) of Section 65583.

(3) For the number of units calculated to accommodate its share of the regional housing need for lower income households pursuant to paragraph (2), a city or county shall do either of the following:

(A) Provide an analysis demonstrating how the adopted densities accommodate this need. The analysis shall include, but is not limited to, factors such as market demand, financial feasibility, or information based on development project experience within a zone or zones that provide housing for lower income households.

(B) The following densities shall be deemed appropriate to accommodate housing for lower income households:

(i) For incorporated cities within nonmetropolitan counties and for nonmetropolitan counties that have micropolitan areas: sites allowing at least 15 units per acre.

(ii) For unincorporated areas in all nonmetropolitan counties not included in clause (i): sites allowing at least 10 units per acre.

(iii) For suburban jurisdictions: sites allowing at least 20 units per acre.

(iv) For jurisdictions in metropolitan counties: sites allowing at least 30 units per acre.

(d) For purposes of this section, metropolitan counties, nonmetropolitan counties, and nonmetropolitan counties with micropolitan areas are as determined by the United States Census Bureau. Nonmetropolitan counties with micropolitan areas include the following counties: Del Norte, Humboldt, Lake Mendocino, Nevada, Tehama, and Tuolumne and such other counties as may be determined by the United States Census Bureau to be nonmetropolitan counties with micropolitan areas in the future.

(e) A jurisdiction is considered suburban if the jurisdiction does not meet the requirements of clauses (i) and (ii) of subparagraph (B) of paragraph (3) of subdivision (c) and is located in a Metropolitan Statistical Area (MSA) of less than 2,000,000 in population, unless that jurisdiction's population is greater than 100,000, in which case it is considered metropolitan. Counties, not including the City and County of San Francisco, will be considered suburban unless they are in a MSA of 2,000,000 or greater in population in which case they are considered metropolitan.

(f) A jurisdiction is considered metropolitan if the jurisdiction does not meet the requirements for "suburban area" above and is located in a MSA of 2,000,000 or greater in population, unless that jurisdiction's population is less than 25,000 in which case it is considered suburban.

(g) For sites described in paragraph (3) of subdivision (b) the city or county shall specify the additional development potential for each site within the planning period and shall provide an explanation of the methodology used to determine the development potential. The methodology shall consider factors including the extent to which existing uses may constitute an impediment to additional residential development, development trends, market conditions, and regulatory or other incentives or

standards to encourage additional residential development on these sites.

(h) The program required by subparagraph (A) of paragraph (1) of subdivision (c) of Section 65583 shall accommodate 100 percent of the need for housing for very low and low-income households allocated pursuant to Section 65584 for which site capacity has not been identified in the inventory of sites pursuant to paragraph (3) of subdivision (a) on sites that shall be zoned to permit owner-occupied and rental multifamily residential use by right during the planning period. These sites shall be zoned with minimum density and development standards that permit at least 16 units per site at a density of at least 16 units per acre in jurisdictions described in clause (i) of subparagraph (B) of paragraph (3) of subdivision (c) and at least 20 units per acre in jurisdictions described in clauses (iii) and (iv) of subparagraph (B) of paragraph (3) of subdivision (c). At least 50 percent of the very low and low-income housing need shall be accommodated on sites designated for residential use and for which nonresidential uses or mixed-uses are not permitted.

(i) For purposes of this section and Section 65583, the phrase “use by right” shall mean that the local government’s review of the owner-occupied or multifamily residential use may not require a conditional use permit, planned unit development permit, or other discretionary local government review or approval that would constitute a “project” for purposes of Division 13 (commencing with Section 21100) of the Public Resources Code. Any subdivision of the sites shall be subject to all laws, including, but not limited to, the local government ordinance implementing the Subdivision Map Act. A local ordinance may provide that “use by right” does not exempt the use from design review. However, that design review shall not constitute a “project” for purposes of Division 13 (commencing with Section 21100) of the Public Resources Code. Use by right for all rental multifamily residential housing shall be provided in accordance with subdivision (f) of Section 65589.5.

SEC. 4. Section 65589.5 of the Government Code is amended to read:

65589.5. (a) The Legislature finds and declares all of the following:

(1) The lack of housing is a critical problem that threatens the economic, environmental, and social quality of life in California.

(2) California housing has become the most expensive in the nation. The excessive cost of the state's housing supply is partially caused by activities and policies of many local governments that limit the approval of housing, increase the cost of land for housing, and require that high fees and exactions be paid by producers of housing.

(3) Among the consequences of those actions are discrimination against low-income and minority households, lack of housing to support employment growth, imbalance in jobs and housing, reduced mobility, urban sprawl, excessive commuting, and air quality deterioration.

(4) Many local governments do not give adequate attention to the economic, environmental, and social costs of decisions that result in disapproval of housing projects, reduction in density of housing projects, and excessive standards for housing projects.

(b) It is the policy of the state that a local government not reject or make infeasible housing developments that contribute to meeting the housing need determined pursuant to this article without a thorough analysis of the economic, social, and environmental effects of the action and without complying with subdivision (d).

(c) The Legislature also recognizes that premature and unnecessary development of agricultural lands for urban uses continues to have adverse effects on the availability of those lands for food and fiber production and on the economy of the state. Furthermore, it is the policy of the state that development should be guided away from prime agricultural lands; therefore, in implementing this section, local jurisdictions should encourage, to the maximum extent practicable, in filling existing urban areas.

(d) A local agency shall not disapprove a housing development project, including farmworker housing as defined in subdivision (d) of Section 50199.50 of the Health and Safety Code, for very low, low- or moderate-income households or condition approval, including through the use of design review standards, in a manner that renders the project infeasible for development for the use of very low, low- or moderate-income households unless it makes written findings, based upon substantial evidence in the record, as to one of the following:

(1) The jurisdiction has adopted a housing element pursuant to this article that has been revised in accordance with Section 65588 and that is in substantial compliance with this article, and the development project is not needed for the jurisdiction to meet its share of the regional housing need for very low, low-, or moderate-income housing.

(2) The development project as proposed would have a specific, adverse impact upon the public health or safety, and there is no feasible method to satisfactorily mitigate or avoid the specific adverse impact without rendering the development unaffordable to low- and moderate-income households. As used in this paragraph, a “specific, adverse impact” means a significant, quantifiable, direct, and unavoidable impact, based on objective, identified written public health or safety standards, policies, or conditions as they existed on the date the application was deemed complete.

(3) The denial of the project or imposition of conditions is required in order to comply with specific state or federal law, and there is no feasible method to comply without rendering the development unaffordable to low- and moderate-income households.

(4) The development project is proposed on land zoned for agriculture or resource preservation that is surrounded on at least two sides by land being used for agricultural or resource preservation purposes, or which does not have adequate water or wastewater facilities to serve the project.

(5) The development project is inconsistent with both the jurisdiction’s zoning ordinance and general plan land use designation as specified in any element of the general plan as it existed on the date the application was deemed complete, and the jurisdiction has adopted a housing element in substantial compliance with this article. This subdivision cannot be utilized to disapprove a housing development project defined in subdivision (a) if the development project is proposed on a site that is identified for very low, low-, or moderate-income households in the jurisdiction’s housing element, and consistent with the density specified in the housing element, even though it is inconsistent with both the jurisdiction’s zoning ordinance and general plan land use designation.

(e) Nothing in this section shall be construed to relieve the local agency from complying with the Congestion Management Program required by Chapter 2.6 (commencing with Section 65088) of Division 1 of Title 7 or the California Coastal Act (Division 20 (commencing with Section 30000) of the Public Resources Code). Neither shall anything in this section be construed to relieve the local agency from making one or more of the findings required pursuant to Section 21081 of the Public Resources Code or otherwise complying with the California Environmental Quality Act (Division 13 (commencing with Section 21000) of the Public Resources Code).

(f) Nothing in this section shall be construed to prohibit a local agency from requiring the development project to comply with objective, quantifiable, written development standards, conditions, and policies appropriate to, and consistent with, meeting the jurisdiction's share of the regional housing need pursuant to Section 65584. However, the development standards, conditions, and policies shall be applied to facilitate and accommodate development at the density permitted on the site and proposed by the development project. Nothing in this section shall be construed to prohibit a local agency from imposing fees and other exactions otherwise authorized by law that are essential to provide necessary public services and facilities to the development project.

(g) This section shall be applicable to charter cities because the Legislature finds that the lack of housing is a critical statewide problem.

(h) The following definitions apply for the purposes of this section:

(1) "Feasible" means capable of being accomplished in a successful manner within a reasonable period of time, taking into account economic, environmental, social, and technological factors.

(2) "Housing development project" means a use consisting of either of the following:

(A) Residential units only.

(B) Mixed-use developments consisting of residential and nonresidential uses in which nonresidential uses are limited to neighborhood commercial uses and to the first floor of buildings that are two or more stories. As used in this paragraph,

“neighborhood commercial” means small-scale general or specialty stores that furnish goods and services primarily to residents of the neighborhood.

(3) “Housing for very low, low-, or moderate-income households” means that either (A) at least 20 percent of the total units shall be sold or rented to lower income households, as defined in Section 50079.5 of the Health and Safety Code, or (B) 100 percent of the units shall be sold or rented to moderate-income households as defined in Section 50093 of the Health and Safety Code, or middle-income households, as defined in Section 65008 of this code. Housing units targeted for lower income households shall be made available at a monthly housing cost that does not exceed 30 percent of 60 percent of area median income with adjustments for household size made in accordance with the adjustment factors on which the lower income eligibility limits are based. Housing units targeted for persons and families of moderate income shall be made available at a monthly housing cost that does not exceed 30 percent of 100 percent of area median income with adjustments for household size made in accordance with the adjustment factors on which the moderate income eligibility limits are based.

(4) “Area median income” means area median income as periodically established by the Department of Housing and Community Development pursuant to Section 50093 of the Health and Safety Code. The developer shall provide sufficient legal commitments to ensure continued availability of units for very low or low-income households in accordance with the provisions of this subdivision for 30 years.

(5) “Neighborhood” means a planning area commonly identified as such in a community’s planning documents, and identified as a neighborhood by the individuals residing and working within the neighborhood. Documentation demonstrating that the area meets the definition of neighborhood may include a map prepared for planning purposes which lists the name and boundaries of the neighborhood.

(6) “Disapprove the development project” includes any instance in which a local agency does either of the following:

(A) Votes on a proposed housing development project application and the application is disapproved.

(B) Fails to comply with the time periods specified in subparagraph (B) of paragraph (1) of subdivision (a) of Section 65950. An extension of time pursuant to Article 5 (commencing with Section 65950) shall be deemed to be an extension of time pursuant to this paragraph.

(i) If any city, county, or city and county denies approval or imposes restrictions, including design changes, a reduction of allowable densities or the percentage of a lot that may be occupied by a building or structure under the applicable planning and zoning in force at the time the application is deemed complete pursuant to Section 65943, that have a substantial adverse effect on the viability or affordability of a housing development for very low, low-, or moderate-income households, and the denial of the development or the imposition of restrictions on the development is the subject of a court action which challenges the denial, then the burden of proof shall be on the local legislative body to show that its decision is consistent with the findings as described in subdivision (d) and that the findings are supported by substantial evidence in the record.

(j) When a proposed housing development project complies with applicable, objective general plan and zoning standards and criteria, including design review standards, in effect at the time that the housing development project's application is determined to be complete, but the local agency proposes to disapprove the project or to approve it upon the condition that the project be developed at a lower density, the local agency shall base its decision regarding the proposed housing development project upon written findings supported by substantial evidence on the record that both of the following conditions exist:

(1) The housing development project would have a specific, adverse impact upon the public health or safety unless the project is disapproved or approved upon the condition that the project be developed at a lower density. As used in this paragraph, a "specific, adverse impact" means a significant, quantifiable, direct, and unavoidable impact, based on objective, identified written public health or safety standards, policies, or conditions as they existed on the date the application was deemed complete.

(2) There is no feasible method to satisfactorily mitigate or avoid the adverse impact identified pursuant to paragraph (1), other than the disapproval of the housing development project or

the approval of the project upon the condition that it be developed at a lower density.

(k) If in any action brought to enforce the provisions of this section, a court finds that the local agency disapproved a project or conditioned its approval in a manner rendering it infeasible for the development of housing for very low, low-, or moderate-income households, including farmworker housing, without making the findings required by this section or without making sufficient findings supported by substantial evidence, the court shall issue an order or judgment compelling compliance with this section within 60 days, including, but not limited to, an order that the local agency take action on the development project. The court shall retain jurisdiction to ensure that its order or judgment is carried out and shall award reasonable attorney's fees and costs of suit to the plaintiff or petitioner who proposed the housing development, except under extraordinary circumstances in which the court finds that awarding fees would not further the purposes of this section. If the court determines that its order or judgment has not been carried out within 60 days, the court may issue further orders as provided by law to ensure that the purposes and policies of this section are fulfilled.

(l) In any action, the record of the proceedings before the local agency shall be filed as expeditiously as possible and, notwithstanding Section 1094.6 of the Code of Civil Procedure, all or part of the record may be filed (1) by the petitioner with the petition or petitioner's points and authorities, (2) by the respondent with respondent's points and authorities, (3) after payment of costs by the petitioner, or (4) as otherwise directed by the court. If the expense of preparing the record has been borne by the petitioner and the petitioner is the prevailing party, the expense shall be taxable as costs.

SEC. 5. Section 65915 of the Government Code is amended to read:

65915. (a) When an applicant proposes a housing development within the jurisdiction of a city, county, or city and county, that local government shall provide the applicant incentives or concessions for the production of housing units and child care facilities as prescribed in this chapter. All cities, counties, or cities and counties shall adopt an ordinance that specifies how compliance with this section will be implemented.

(b) A city, county, or city and county shall either grant a density bonus and at least one of the concessions or incentives identified in subdivision (k), or provide other incentives or concessions of equivalent financial value based upon the land cost per dwelling unit, when the applicant for the housing development agrees or proposes to construct at least any one of the following:

(1) Twenty percent of the total units of a housing development for lower income households, as defined in Section 50079.5 of the Health and Safety Code.

(2) Ten percent of the total units of a housing development for very low income households, as defined in Section 50105 of the Health and Safety Code.

(3) Fifty percent of the total dwelling units of a housing development for qualifying residents, as defined in Section 51.3 of the Civil Code.

(4) Twenty percent of the total dwelling units in a condominium project as defined in subdivision (f) of Section 1351 of the Civil Code, for persons and families of moderate income, as defined in Section 50093 of the Health and Safety Code.

The city, county, or city and county shall grant the additional concession or incentive required by this subdivision unless the city, county, or city and county makes a written finding, based upon substantial evidence, that the additional concession or incentive is not required in order to provide for affordable housing costs, as defined in Section 50052.5 of the Health and Safety Code, or for rents for the targeted units to be set as specified in subdivision (c).

(c) (1) An applicant shall agree to, and the city, county, or city and county shall ensure, continued affordability of all lower income density bonus units for 30 years or a longer period of time if required by the construction or mortgage financing assistance program, mortgage insurance program, or rental subsidy program. Those units targeted for lower income households, as defined in Section 50079.5 of the Health and Safety Code, shall be affordable at a rent that does not exceed 30 percent of 60 percent of area median income. Those units targeted for very low income households, as defined in Section 50105 of the Health and Safety Code, shall be affordable at a rent that does not exceed 30 percent of 50 percent of area median income.

(2) An applicant shall agree to, and the city, county, or city and county shall ensure, continued affordability of the moderate-income units that are directly related to the receipt of the density bonus for 10 years if the housing is in a condominium project as defined in subdivision (f) of Section 1351 of the Civil Code.

(d) An applicant may submit to a city, county, or city and county a proposal for the specific incentives or concessions that the applicant requests pursuant to this section, and may request a meeting with the city, county, or city and county. The city, county, or city and county shall grant the concession or incentive requested by the applicant unless the city, county, or city and county makes a written finding, based upon substantial evidence, of either of the following:

(1) The concession or incentive is not required in order to provide for affordable housing costs, as defined in Section 50052.5 of the Health and Safety Code, or for rents for the targeted units to be set as specified in subdivision (c).

(2) The concession or incentive would have a specific adverse impact, as defined in paragraph (2) of subdivision (d) of Section 65589.5, upon public health and safety or the physical environment or on any real property that is listed in the California Register of Historical Resources and for which there is no feasible method to satisfactorily mitigate or avoid the specific adverse impact without rendering the development unaffordable to low- and moderate-income households.

The applicant may initiate judicial proceedings if the city, county, or city and county refuses to grant a requested density bonus, incentive, or concession. If a court finds that the refusal to grant a requested density bonus, incentive, or concession is in violation of this section, the court shall award the plaintiff reasonable attorney's fees and costs of suit. Nothing in this subdivision shall be interpreted to require a local government to grant an incentive or concession that has a specific, adverse impact, as defined in paragraph (2) of subdivision (d) of Section 65589.5, upon health, safety, or the physical environment, and for which there is no feasible method to satisfactorily mitigate or avoid the specific adverse impact. Nothing in this subdivision shall be interpreted to require a local government to grant an incentive or concession that would have an adverse impact on any real

property that is listed in the California Register of Historical Resources. The city, county, or city and county shall establish procedures for carrying out this section, that shall include legislative body approval of the means of compliance with this section. The city, county, or city and county shall also establish procedures for waiving or modifying development and zoning standards that would otherwise inhibit the utilization of the density bonus on specific sites. These procedures shall include, but not be limited to, such items as minimum lot size, side yard setbacks, and placement of public works improvements.

(e) In no case may a city, county, or city and county apply any development standard that will have the effect of precluding the construction of a development meeting the criteria of subdivision (b) at the densities or with the concessions or incentives permitted by this section. An applicant may submit to a city, county, or city and county a proposal for the waiver or reduction of development standards and may request a meeting with the city, county, or city and county. If a court finds that the refusal to grant a waiver or reduction of development standards is in violation of this section, the court shall award the plaintiff reasonable attorney's fees and costs of suit. Nothing in this subdivision shall be interpreted to require a local government to waive or reduce development standards if the waiver or reduction would have a specific, adverse impact, as defined in paragraph (2) of subdivision (d) of Section 65589.5, upon health, safety, or the physical environment, and for which there is no feasible method to satisfactorily mitigate or avoid the specific adverse impact. Nothing in this subdivision shall be interpreted to require a local government to waive or reduce development standards that would have an adverse impact on any real property that is listed in the California Register of Historical Resources.

(f) The applicant shall show that the waiver or modification is necessary to make the housing units economically feasible.

(g) (1) For the purposes of this chapter, except as provided in paragraph (2), "density bonus" means a density increase of at least 25 percent, unless a lesser percentage is elected by the applicant, over the otherwise maximum allowable residential density under the applicable zoning ordinance and land use element of the general plan as of the date of application by the applicant to the city, county, or city and county. All density calculations resulting

in fractional units shall be rounded up to the next whole number. The granting of a density bonus shall not be interpreted, in and of itself, to require a general plan amendment, local coastal plan amendment, zoning change, or other discretionary approval. The density bonus shall not be included when determining the number of housing units which is equal to 10, 20, or 50 percent of the total. The density bonus shall apply to housing developments consisting of five or more dwelling units.

(2) For the purposes of this chapter, if a development does not meet the requirements of paragraph (1), (2), or (3) of subdivision (b), but the applicant agrees or proposes to construct a condominium project as defined in subdivision (f) of Section 1351 of the Civil Code, in which at least 20 percent of the total dwelling units are reserved for persons and families of moderate income, as defined in Section 50093 of the Health and Safety Code, a “density bonus” of at least 10 percent shall be granted, unless a lesser percentage is elected by the applicant, over the otherwise maximum allowable residential density under the applicable zoning ordinance and land use element of the general plan as of the date of application by the applicant to the city, county, or city and county. All density calculations resulting in fractional units shall be rounded up to the next whole number. The granting of a density bonus shall not be interpreted, in and of itself, to require a general plan amendment, local coastal plan amendment, zoning change, or other discretionary approval. The density bonus shall not be included when determining the number of housing units which is equal to 20 percent of the total. The density bonus shall apply to housing developments consisting of five or more dwelling units.

(h) (1) When an applicant proposes to construct a housing development that conforms to the requirements of subdivision (b) and includes a child care facility that will be located on the premises of, as part of, or adjacent to, the project, the city, county, or city and county shall grant either of the following:

(A) An additional density bonus that is an amount of square feet of residential space that is equal to or greater than the amount of square feet in the child care facility.

(B) An additional concession or incentive that contributes significantly to the economic feasibility of the construction of the child care facility.

(2) The city, county, or city and county shall require, as a condition of approving the housing development, that the following occur:

(A) The child care facility shall remain in operation for a period of time that is as long as or longer than the period of time during which the density bonus units are required to remain affordable pursuant to subdivision (c).

(B) Of the children who attend the child care facility, the children of very low income households, lower income households, or families of moderate income shall equal a percentage that is equal to or greater than the percentage of dwelling units that are required for very low income households, lower income households, or families of moderate income pursuant to subdivision (b).

(3) Notwithstanding any requirement of this subdivision, a city, county, or a city and county shall not be required to provide a density bonus or concession for a child care facility if it finds, based upon substantial evidence, that the community has adequate child care facilities.

(4) “Child care facility,” as used in this section, means a child day care facility other than a family day care home, including, but not limited to, infant centers, preschools, extended day care facilities, and schoolage child care centers.

(i) “Housing development,” as used in this section, means one or more groups of projects for residential units constructed in the planned development of a city, county, or city and county. For the purposes of this section, “housing development” also includes either (1) a project to substantially rehabilitate and convert an existing commercial building to residential use, or (2) the substantial rehabilitation of an existing multifamily dwelling, as defined in subdivision (d) of Section 65863.4, where the result of the rehabilitation would be a net increase in available residential units. For the purpose of calculating a density bonus, the residential units do not have to be based upon individual subdivision maps or parcels. The density bonus shall be permitted in geographic areas of the housing development other than the areas where the units for the lower income households are located.

(j) The granting of a concession or incentive shall not be interpreted, in and of itself, to require a general plan amendment, local coastal plan amendment, zoning change, or other

discretionary approval. This provision is declaratory of existing law.

(k) For the purposes of this chapter, concession or incentive means any of the following:

(1) A reduction in site development standards or a modification of zoning code requirements or architectural design requirements that exceed the minimum building standards approved by the California Building Standards Commission as provided in Part 2.5 (commencing with Section 18901) of Division 13 of the Health and Safety Code, including, but not limited to, a reduction in setback and square footage requirements and in the ratio of vehicular parking spaces that would otherwise be required.

(2) Approval of mixed use zoning in conjunction with the housing project if commercial, office, industrial, or other land uses will reduce the cost of the housing development and if the commercial, office, industrial, or other land uses are compatible with the housing project and the existing or planned development in the area where the proposed housing project will be located.

(3) Other regulatory incentives or concessions proposed by the developer or the city, county, or city and county that result in identifiable and actual cost reductions.

This subdivision does not limit or require the provision of direct financial incentives for the housing development, including the provision of publicly owned land, by the city, county, or city and county, or the waiver of fees or dedication requirements.

(l) If an applicant agrees to construct both 20 percent of the total units for lower income households and 10 percent of the total units for very low income households, the developer is entitled to only one density bonus and at least one additional concession or incentive identified in Section 65913.4 under this section although the city, county, or city and county may, at its discretion, grant more than one density bonus.

(m) Nothing in this section shall be construed to supersede or in any way alter or lessen the effect or application of the California Coastal Act (Division 20 (commencing with Section 30000) of the Public Resources Code).

(n) A local agency may charge a fee to reimburse it for costs it incurs as a result of amendments to this section enacted during the 2001–02 Regular Session of the Legislature.

(o) For purposes of this section, the following definitions shall apply:

(1) “Development standard” means any ordinance, general plan element, specific plan, charter amendment, or other local condition, law, policy, resolution, or regulation.

(2) “Maximum allowable residential density” means the density allowed under the zoning ordinance, or if a range of density is permitted, means the maximum allowable density for the specific zoning range applicable to the project.

(p) (1) Upon the request of the developer, no city, county, or city and county shall require a vehicular parking ratio, inclusive of handicapped and guest parking, of a development meeting the criteria of subdivision (b), that exceeds the following ratios:

(A) Zero to one bedrooms: one onsite parking space.

(B) Two to three bedrooms: two onsite parking spaces.

(C) Four and more bedrooms: two and one-half parking spaces.

(2) If the total number of parking spaces required for a development is other than a whole number, the number shall be rounded up to the next whole number. For purposes of this subdivision, a development may provide “onsite parking” through tandem parking or uncovered parking, but not through on-street parking.

(3) This subdivision shall apply to a development meeting the requirements of subdivision (b) and only at the request of the applicant. An applicant may request additional parking incentives or concessions beyond those provided in this section, subject to subdivision (d).

SEC. 6. Notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide cost of the claim for reimbursement does not exceed one million dollars (\$1,000,000), reimbursement shall be made from the State Mandates Claims Fund.

SEC. 7. This act shall become operative only if Assembly Bill 2158 of the 2003–04 Regular Session is enacted and becomes operative.

Approved _____, 2004

Governor
